Project Development Phase
Model Performance Test

Date	14 October 2026
Team ID	
Project Name	Metro Ticket Generating System
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Model Summary	No AI model is used. Metro Ticket Generating System is a rule-based ServiceNow application: the fare is calculated by a catalog client script using a fixed fare for each route, and the QR code is generated by an external QR Code API.	Not Applicable
2.	Accuracy	Training Accuracy – Not applicable (no model is trained) Validation Accuracy – Not applicable Functional accuracy of fare logic: all fare test cases matched the expected amount (₹100 single, ₹180 return)	Not Applicable
3.	Fine Tuning Result(if Done)	Validation Accuracy – Not applicable (no model). The rule-based logic was corrected during testing: removed an extra bracket in the fare script and used the instance's own station sys_ids.	Not Applicable
