Project Name	Metro Ticket Generating System
Maximum Marks	

Project Overview:

Project Name: Metro Ticket Generating System

Project Description: A ServiceNow application that lets passengers book metro tickets on the Service Portal, calculates the fare automatically, shows a QR code ticket and stores every booking in a custom table through Flow Designer.

Project Version: 1.0 (Phase 1)

Testing Period: 13 October 2026 to 14 October 2026

Testing Scope:

Features: station data, catalog form and variables, fare calculation, payment UI policy, QR ticket generation, request submission, booking storage (flow), catalog task, table security (ACLs).

User stories / requirements: USN-1 to USN-12 (see User Stories) and FR-1 to FR-6 (see Solution Requirements).

Testing Environment:

URL/Location: https://<instance>.service-now.com/sp (Service Portal of the ServiceNow Personal Developer Instance)

Credentials (if required): admin account for building and testing; test user 'metro.user' (no roles) for the security test

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Station records exist	1. Open Metro Station's Details list 2. Check the records	5 stations listed: Ameerpet, Madhapur, LB Nagar, Kukatpally,	5 stations listed	Pass

			Jubilee Hills		
TC-002	Station names show in the form	1. Open the form on /sp 2. Click Starting From	Station names (not codes) are shown	Names shown (Station Name is display value)	Pass
TC-003	Catalog item available on the portal	1. Open /sp 2. Search 'Book A Metro Ticket'	Item found under Services and opens	Item found and opened	Pass
TC-004	All form fields are displayed	1. Open the form 2. Check the fields	All variables shown; Enter payment mode hidden	Fields shown; Enter payment mode hidden	Pass
TC-005	Mandatory field validation	1. Fill all fields except No of Passengers 2. Click Order Now	Order blocked with mandatory message	Mandatory message shown; order blocked	Pass
TC-006	Fare fields are read-only	1. Open the form 2. Try to type in Amount for single journey	Amount cannot be typed by the user	Field is read-only	Pass
TC-007	Single journey fare	1. Ameerpet → LB Nagar 2. Single Journey 3. No of Passengers = 2	Amount for single journey = 100	100 shown	Pass
TC-008	Return journey fare	1. Ameerpet → Madhapur 2. Return Journey	Amount including return = 180	180 shown	Pass

		3. No of Passengers = 3			
TC-009	Others shows Enter payment mode	1. Select Mode of Payment = Others	Enter payment mode appears and is mandatory	Field appeared with mandatory mark	Pass
TC-010	UPI hides Enter payment mode	1. Select Others 2. Change to UPI	Enter payment mode is hidden again	Field hidden	Pass
TC-011	QR ticket on first Order Now	1. Fill the form 2. Order Now → Checkout	QR popup (metro_qr_widget) appears; order held	QR popup appeared	Pass
TC-012	Request created on second Order Now	1. Click OK in QR popup 2. Order Now → Checkout again	Order placed; REQ number shown	REQ number shown on order page	Pass
TC-013	Booking stored in table	1. Open Metro Ticket Booking list 2. Open newest MTB record	New MTB record with all form values	Record created with correct values	Pass
TC-014	Verification task and flow status	1. Open newest RITM → Catalog Tasks 2. Open flow execution	Task for Station Managers; flow Completed	Task created; flow Completed	Pass
TC-015	Normal user cannot open booking table	1. Impersonate Metro User (no roles) 2. Open u_metro_ticket_boo	No records / security message	Access blocked	Pass

		king.list			

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Fare script gave a syntax error (extra closing bracket '}' in the guide's script)	1. Paste guide's fare script 2. Save and open the form	High	Closed	Removed the extra bracket
BG-002	Fare not calculated – script used station sys_ids from another instance	1. Select Ameerpet → LB Nagar 2. Amount stays empty	High	Closed	Replaced with own station sys_ids
BG-003	Flow could not map No of Passengers (Select Box value vs Integer column)	1. Open flow Create Record 2. Add No of Passengers pill	Medium	Closed	Changed column type to String
BG-004	Order never submitted – QR script always returned false, so no REQ number	1. Fill form 2. Order Now twice	High	Closed	Added a check for the 'QR shown' flag
BG-005	JavaScript error: Cannot read properties of null (reading 'metroQrDone') on the	1. Use window.metroQrDone in script 2. Order Now	High	Closed	Stored the flag on g_form instead of window

	portal				
BG-006	Both amount fields are visible before a journey type is selected	1. Open the form	Low	Closed	Kept as in the project guide
BG-007	Amount does not update when stations or journey are changed after choosing passengers	1. Choose passengers 2. Change station	Low	Open	Workaround : choose No of Passengers last
BG-008	Routes without a configured fare leave the amount empty	1. Madhapur → LB Nagar 2. Amount empty	Medium	Open	Add fares for all station pairs in future

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
